

#### HARD ROCK STORE, LONDON

Following completion of the Hard Rock Casino in Central London, Hard Rock/Grosvenor Casino acquired the adjacent shop unit of 100m<sup>2</sup>. Lavingtons acted as Quantity Surveyors for this new concept which, although smaller than some of their projects, proved complex and challenging to ensure the Client's changing requirements were accommodated within his budget.

Lavingtons provided cost advice on all works including construction and all Client's direct contractors.
